

## **Bargaining Report –September 10, 2015**

The Bargaining Committee has been meeting to discuss proposals and information while we waited for the company to clarify information they had previously provided to the Unions. Today we had off table discussions regarding employee contributions and the methodology for the company calculations. These discussions were productive and will be helpful in the Union's proposal which we will present next week. IBEW asked the company for counterproposals on our Dental and ACCLS proposals. The company has told us that they have none. The Dental proposal would be the first improvement to the plan in over a decade and the ACCLS proposal would add no additional costs to a program that the company acknowledges is well run and one of the reasons that someone should come work here, as reported in Working Woman magazine. The company and the Unions will resume discussions next week.

Continue daily informational pickets and attending rallies as they are scheduled. Continue to take good care of our customers who are our future. We are one day stronger than we have to be.

Your Bargaining Committee reminds you.....Work Safe-Be Strong- Stay United
