

Bargaining Report –September 2, 2015

The Bargaining Committee met with the company off table to discuss healthcare, plan design, plan costs, and data. The committee questioned the data we have received and the company is verifying that information. The Unions continue to piece together all the information provided to us by the company, in an effort to understand the company's position and the true cost of benefits. We will continue to review information to compose proposals.

Verizon has money to roll out a new logo....why wasn't that money allocated toward the pensions and benefits of the hard working employees who are the face of Verizon. WE are their best advertisement. How much was spent on this endeavor? How much will this cost to update all of their holdings and equipment?

This weekend is Labor Day weekend. Take the time to participate and remember the sacrifices that have been made for the Labor Movement...the sacrifices we make today for the Labor movement going forward. Fair contracts are not handed out to us by employers they are fought for with unity and strength.

Continue daily informational pickets and attending rallies as they are scheduled. Continue to take good care of our customers who are our future. We are one day stronger than we have to be.

Your Bargaining Committee reminds you.....Work Safe-Be Strong- Stay United
